MEMORANDUM FOR: (See Distribution)

SUBJECT: FY 1969 Budget Submission

1. The attached FY 1969 Program Recommendations have been approved in substance by OSA and DDS&T and have been forwarded to the National Reconnaissance Office for further consideration.

2. The usual routine is that OSA will have a hearing with the NRO to justify each item as necessary. OSA will further be required to answer all questions that are considered germane by the NRO. This happening should be in late May.

3. The normal follow-on action is for the NRO to determine the amounts of money they intend to apply against each line item and forward this information to OSA about 1 July. You will be given this information when it is received so that you may govern your actions accordingly.
